IF ARRIVING IN WHITTIER: Meet your Tour Director and traveling companions aboard the private luxury transport service. Upon boarding, begin your adventure with a ride through the Anton Anderson Memorial Tunnel, the longest tunnel in North America, 2.5 miles! It is the first tunnel designed for -40° F. and 150 mph winds. The tunnel is located fifty miles southeast of Anchorage near Portage Glacier, and connects the port city of Whittier on Prince William Sound to the Seward Highway and Southcentral Alaska. It opened to vehicle traffic on June 7, 2000 after extensive conversion from a World War II railroad tunnel.

Arrive at Portage glacier, leisure time offers a great area to view the icebergs in the lake as well as hanging glaciers that will keep your camera busy. Begich-Boggs Visitors Center offers an unique opportunity to learn about the Chugach National Forest, America's second largest national forest. Award-winning exhibits, educational presentations, the film "Voices from the Ice," information services, and an Alaska Natural History Association bookstore are available. Interpretive signs along the trail help paint the picture of Portage Glacier's retreat revealing a landscape full of new life. A stop to view salmon spawning depending on season.

Next, visit the Alaska Wildlife Conservation Center, opened to the public in 1993. It is located on 140 acres at the southern edge of Turnagain Arm and the entrance to Portage Valley. AWCC provides care and rehabilitation for injured and orphaned wildlife and to provide wildlife education and awareness. Animals that are unable to be released or survive in the wild are given refuge in the center's spacious habitats. Here people can safely get close, observe and photograph some of Alaska's largest land animals, including moose, bison, elk, deer, caribou, bears musk ox, small mammals and birds of prey.
