native influenced “spirit houses”, while sharing in their cultural traditions. Continuing north, we will pass the “Palmer Hay Flats”, and the Knik Arm of the Cook Inlet. This tundra-covered lowland is home to wildlife and several species of birds.

DAY TWO:

WASILLA: Rise & Shine, as the midnight sun never sets! Continental breakfasts will be available in your private room as you begin your day. Here you have your choice of taking a walk on paved trails, or hiking back into the mountains for a real adventure. Those who love photography will have a real photo safari here with the arctic flora and fauna.

Or if learning about the history of the area is your choice, a park naturalist is here to share the history of the mine, as well as the lifestyle of the engineers to the flunkies who worked tirelessly on the mine. A lunch stop will be provided at or near Hatcher Pass.

PALMER: This afternoon’s adventure will take you aboard an airboat ride to Lake George, the base of Knik Glacier. Lake George, an ice dammed lake was once responsible for floods of cataclysmic proportions. Knik Glacier, 28 miles long, 6 miles wide and over 1000 feet thick, is one of Alaska’s grandest natural attractions.

Knik Glacier, born in the Pleistocene Glaciation period (the beginning of the Ice Age) 600,000 years ago, covered the Anchorage bowl and the entire Cook Inlet. While it remains active, with motion imperceptible to the naked eye, this glacier is in a constant state of change. Participants should be able to step in and out of a Jet Boat or Air Boat window, which requires some agility. Participants should also be able to navigate a loose gravel trail with a slight incline. Participants must have the ability to walk unassisted.

After traveling all over the state of Alaska, the Knik Glacier always turns out to be a trip highlight. We consider ourselves very fortunate to live in such a magnificent landscape and it is our pleasure to share it with you. A dinner stop is provided in Palmer. Then it is back to your comfy Wasilla accommodations. **(B)**

TALKEETNA: Rise & Shine to visit the home of the Iditarod. Race Headquarters expose you to the lure of the dog sleds of the past. Meet an Iditarod musher and dog team and share in the thrill of the race, as you take a ride on a summer dog sled ride around a quarter acre track. Today will present one of many highlights of your adventure. Talkeetna is a local town sporting the most photographed scenes in our state, the towering peaks of Mt. McKinley & the Alaska mountain range. Only 1 ½ hours north, this town is a hub of international mountain climbers. You will be able to choose one of the following adventures to enjoy in Talkeetna.

ACTIVITY ONE: DENALI FLIGHTSEEING & GLACIER LANDING:

- This magnificent flight takes you within six miles of Mt. McKinley's summit. As your flight departs Talkeetna, you begin to see how the last ice age has shaped the land. Moments later you enter a world of rugged high mountain peaks and wide glacier filled valleys. Listen as your pilot describes the natural wonders of Denali National Park. See the Sheldon Amphitheater, beautiful Ruth Glacier, and the Great Gorge (the worlds deepest - almost 2 miles from top to bottom). "No visit is complete without this experience!" Land on the Sheldon Amphitheatre glacier beneath Mt. McKinley, The aircraft is equipped with skis, floats, and voice activated headphones. Passengers, each with comfortable window seats, enjoy narration by an experienced pilot-guide highlighting points of interest including geology, wildlife, and history. Flight time is 1.5 hrs and includes a glacier landing. Upgrades for longer flights can be purchased.

ACTIVITY TWO: 2-HOUR RIVERBOAT ADVENTURE:

- Your exciting trip will begin aboard the fifty-one passenger "Talkeetna Queen" as it whisks you into the heart of the wilderness in comfort. This is the most technologically advanced river jetboat in Alaska designed to safely navigate rivers that were previously inaccessible. It is glass-domed, environmentally controlled, and has an onboard restroom for your comfort. You will visit an authentic trapper's cabin and view how trappers lived in "Bush" Alaska at the turn of the century. Your experienced guide will display raw furs from the local area and demonstrate trapping methods. Naturalists will acquaint you with the wildflowers and plants that grow in abundance along the river system and you will learn about the edible plants that were used by the Native Indians for cooking and medicines. As you travel ten miles of river you will have opportunities to view nesting bald eagles, beaver activity, and moose and you just might see black bear and grizzly bear roaming the shore. Wildlife, folklore, artifacts and a panoramic view of Denali in the Alaska Range combine to make this an unforgettable Alaskan river adventure.

This afternoon, enjoy late lunch before continuing our adventure to Denali National Park. Crossing over Hurricane Gulch, have your cameras ready. The vistas are breathtaking. Upon arrival in Denali National Park, this evening is at your leisure for shopping, dining or sightseeing. Tonight you will overnight near Denali National Park.

DAY FOUR:

DENALI: Everything about Denali National Park is big: the scenery, the mountains, the incredible beauty, and the animals. Early this morning, you will embark on the Denali Park Tour, an excellent way to spot the wildlife for which Alaska is so famous: moose, bear, wolves, caribou, Dall sheep. It is a fascinating 4 to 6 hour motorcoach tour into the park. It is the only way to enter the park, as it is a preserve. So bring your camera and binoculars. A sack lunch and beverage are provided.

Mount McKinley National Park was established in 1917 to protect its large mammals, not because of majestic Mt. McKinley. In 1980, the boundary was expanded to include both the Denali caribou herds wintering and calving ground and the entire Mt. McKinley massif. This more than tripled the size of the park, and was renamed Denali National Park and Preserve. It was also designated an International Biosphere Reserve significant for the potential for sub-arctic ecosystem research.

Denali is an Athabascan word meaning "The High One". The mountain is officially named Mt. McKinley but is also referred to as Denali. Mt. McKinley is the highest peak in North America at 20,320 feet. It creates its own weather system and is often covered in clouds. Mt. McKinley is only visible about 1/3 of the time, so visitors to the park only have about a 30% chance of viewing Mt. McKinley.

Denali is one of the greatest wildlife viewing areas in the world. Visitors have a chance of seeing grizzly bears, caribou, moose, Dall sheep, foxes, and wolves. Many smaller animals also inhabit the park such as arctic ground squirrels, hoary marmots, pikas, snowshoe hares, and beavers. For those interested in bird watching, there are a variety of birds that migrate to the park for the summer. The list includes arctic tern, American golden plover, long tailed jaegers, the surfbird, arctic warbler, the wheatear, willow ptarmigan, golden eagles, and ravens. Approximately 150 species live in and around the Denali area during the summer months.

ANCHORAGE: As your adventure comes to a close, you will have gained memories that will last a lifetime. (Here you will transfer to the airport or you may choose to add a hotel night.)
