## DAY FIVE

**DENALI:** Everything about Denali National Park is big: the scenery, the mountains, the incredible beauty, and the animals. Early this morning, you will embark on the Denali Park Shuttle Tour, an excellent way to spot the wildlife for which Alaska is so famous: moose, bear, wolves, caribou, dall sheep. It is a fascinating 6 to 8-hour motorcoach tour into the park. A snack and beverage are included. It is the only way to enter the park, as it is a preserve. So, bring your camera and binoculars.

The bus stops every 1 hr 10 min. for restrooms and whenever wildlife is sighted as you travel. Opened in June 2008 the completely reconstructed Eielson Visitor Center was built as sustainable construction and features informative interpretive exhibits. This is the turnaround point, allowing 30 minutes to explore the visitor center or the surrounding area with a short hike. This shuttle time is 8 hours roundtrip, including all stops. AAU arranges for and includes boxed lunch and beverage for the trip. So, be sure to bring your camera and binoculars.

Mount McKinley National Park was established in 1917 to protect its large mammals, not because of majestic Mt. McKinley. In 1980, the boundary was expanded to include both the Denali caribou herds wintering and calving ground and the entire Mt.

McKinley massif. This more than tripled the size of the park and was renamed Denali National Park and Preserve. It was also designated an International Biosphere Reserve significant for the potential for sub-arctic ecosystem research.

Denali is an Athabascan word meaning The High One. The mountain is officially named Mt. McKinley but is also referred to as Denali. Mt. McKinley is the highest peak in North America at 20,320 feet. It creates its own weather system and is often covered in clouds. Mt. McKinley is only visible about 1/3 of the time, so visitors to the park only have about a 30% chance of viewing Mt. McKinley.

Denali is one of the greatest wildlife viewing areas in the world. Visitors have a chance to see grizzly bears, caribou, moose, Dall sheep, foxes, and wolves. Many smaller animals also inhabit the park such as arctic ground squirrels, hoary marmots, pikas, snowshoe hares, and beavers. For those interested in bird watching, there are a variety of birds that migrate to the park for the summer. The list includes arctic tern, American golden plover, long tailed Jaeger, the surfbird, arctic warbler, the wheatear, willow ptarmigan, golden eagles, and ravens. Approximately 150 species live in and around the Denali area during the summer months.

This evening, relax and enjoy surroundings where easy walking trails will add to your enjoyment. Overnight again in Denali National Park at your lakeside Inn. **(Continental Breakfast & Sack Lunch Included)**

Pick up maps and brochures, join a ranger for a history talk or nature walk or plan your wilderness excursion. The visitor center also hosts a small branch of the Alaska Geographic's bookstore.

At 12 PM, enjoy a drive down to the VERY small town of McCarthy. McCarthy bloomed as the service town for Kennicott. Hotels, stores, pool halls and other "entertainment" made up the bustling Alaskan town. At its peak, McCarthy had around 500 buildings of which a handful still remain. When Kennicott ceased operation and the last train left in 1938, McCarthy slowly died. The area is now home to approximately 25 - 30 year-round residents and has become a popular destination for many travelers from around the world. Locals share the flare of living remote and small-town shops show off wares from local artists. Here you will have the opportunity to enjoy a real "Alaskan" dive at "The Potato". ## OPTIONAL DAY TOUR

*Alaska Coastal Bear Viewing Tour - Upgrade \$895 - \$975.00 pp (Plus Tax)*

Our premier Ursus Bear Habitat Encounter introduces you to two styles of observing large coastal bears feeding and interacting with their young in their natural habitat. This small plane adventure affords you the experience of participating in a photo safari across Cook Inlet to Katmai or Lake Clark National Parks. Silver Creek is a more personalized premium coastal viewing encounter landing on the beach with only 4-6 participants, seeing the bears in their natural habitat and the Katmai National Park offers the views of the bears feeding in the waterfalls from platforms with hundreds of other guests. Choose from the below two options for the BEST bear viewing adventure in Alaska!

### LAKE CLARK BEAR VIEWING

Lake Clark National Park is located on the western shores of the Cook Inlet. This ocean front setting is the ultimate bear habitat. The creek running through the middle of the prairie land is loaded with Silver Salmon, attracting a resident Brown Bear population to the area all summer long. The tall grass and Iliamna Volcano backdrop make for the best pictures.

Your Lake Clark National Park Bear Viewing Adventure Begins when you depart Anchorage on one of our aircraft and head south along the Cook Inlet. The flight in itself will be a spectacular flightseeing tour; this scenic route takes you by 3 active volcanoes, numerous salmon streams, glaciers, and other Alaskan sights. The flight down takes about 1 hour, once there the aircraft will land on the beach at low tide. Once you are on the ground, your pilot will give you a brief bear orientation

The Lake Clark Bear Viewing Begins after a brief bear orientation aimed at group safety. You will head out into this ideal bear habitat to watch these creatures interact with each other in the wild. Your pilot will take you through the park, adding to your safety and answering any questions you may have about the bears. The area is excellent for viewing the bears because of the layout and geography; it is a long stretch of prairie grassland and beachfront. Watch as they frolic in the grass with their cubs, dig for clams, and take afternoon naps. Lake Clark National Park is beginning to be well known as the best bear viewing in Alaska, and for good reason. This area is home mostly to Brown Bears, but it is not uncommon to see a few Black Bears in the area as well.

Mobility Impaired: This tour requires a moderate amount of walking on uneven terrain (approximately 1-2 miles) If you are concerned about you or someone in your party's ability to do so, please contact our office to review the options.
