## DAY FIVE

**DENALI:** Everything about Denali National Park is big: the scenery, the mountains, the incredible beauty, and the animals. Departure this morning is between 8-8:30 AM after your included continental breakfast in your room. Your guide will escort you to the Wilderness Access Center to embark on the Denali Park Shuttle Tour, an excellent way to spot the wildlife for which Alaska is so famous: moose, bear, wolves, caribou, Dall sheep.

Depending on departure dates, generally this tour begins at 9:30 AM with arrival at the center at 9:00 AM. The park shuttle (school bus style) stops every 1 hr. 10 min. for restrooms and whenever wildlife is sighted as you travel. Opened in June 2008 the

completely reconstructed Eielson Visitor Center was built as sustainable construction and features informative interpretive exhibits. This is the turnaround point, allowing 30 minutes to explore the visitor center or the surrounding area with a short hike. This shuttle time is 8 hours' roundtrip, including all stops. AAU arranges for and includes a picnic style sack lunch and beverage for the trip. So, bring your camera and binoculars and extra snacks if you need treats for the 8-HR bus ride.

Mount McKinley National Park was established in 1917 to protect its large mammals, not because of majestic Mt. McKinley. In 1980, the boundary was expanded to include both the Denali caribou herds wintering and calving ground and the entire Mt. McKinley massif. This more than tripled the size of the park and was renamed Denali National Park and Preserve. It was also designated an International Biosphere Reserve significant for the potential for sub-arctic ecosystem research.

Denali is an Athabascan word meaning "The High One". The mountain is officially named Mt. McKinley but is also referred to as Denali. Mt. McKinley is the highest peak in North America at 20,320 feet. It creates its own weather system and is often covered in clouds. Mt. McKinley is only visible about 1/3 of the time, so visitors to the park only have about a 30% chance of viewing Mt. McKinley.

Denali is one of the greatest wildlife viewing areas in the world. Visitors have a chance of seeing grizzly bears, caribou, moose, Dall sheep, foxes, and wolves. Many smaller animals also inhabit the park such as arctic ground squirrels, hoary marmots, pikas, snowshoe hares, and beavers. For those interested in bird watching, there are a variety of birds that migrate to the park for the summer. The list includes arctic tern, American golden plover, long tailed jaegers, the surfbird, arctic warbler, the

wheatear, willow ptarmigan, golden eagles, and ravens. Approximately 150 species live in and around the Denali area during the summer months. Your wildlife viewing will end around 4:30-5:30 PM. Our guide will meet you, and whisk you away to a relaxing dinner.

This evening, dinner is at a local hot spot featuring the Bus from the movie "With-in the Wild". Hosted at a local brewery, industrial warehouse style restaurant. Overnight again in the Denali area. (Continental Breakfast & Sack Lunch included – Dinner meal not included; restaurant stop provided)

## DAY SIX

We bring our own gold pans and just have fun trying the "real thing". This is not a salted trough. On a sunny day, you will be amazed at the "sparkle" in your pan, but is it real?

The park is open to hike and enjoy at arrival. However, the buildings are not open for walk-through viewing. A park naturalist is available after 11 AM when the Visitor Center opens, for about 30 minutes, to share the history of the mine, as well as flora & fauna of the area. Hatcher Pass is a favorite of guests, for its beauty, wildflowers, berries and wildlife and the best photography in later summer! This tour ends by 11:30 PM. Independence Mine does not open until June 15<sup>th</sup>, and sometimes later, depending on the snowmelt. So be aware that your tour may substitute this morning adventure with a fun trip to the Musk Ox Co-op, if snow is still in the pass. Lunch will be INCLUDED at a local area favorite restaurant.

**PALMER:** This afternoon, at 1 PM you will travel to Knik Glacier through the Butte, with arrival at 2 PM. Knik Glacier, 28 miles long, 6 miles wide and over 1000 feet thick, is one of Alaska's grandest natural attractions.

Knik Glacier, born in the Pleistocene Glaciation period (the beginning of the Ice Age) 600,000 years ago, covered the Anchorage bowl and the entire Cook Inlet. While it remains active, with motion imperceptible to the naked eye, this glacier is in a constant state of change. Participants should be able to step in and out of a Jet Boat or Air Boat window, which requires some agility. Participants should also be able to navigate a loose gravel trail with a slight incline. Participants must have the ability to walk unassisted.

After traveling all over the state of Alaska, the Knik Glacier always turns out to be a trip highlight. We consider ourselves very fortunate to live in such a magnificent landscape. It will be our pleasure to share it with you.

**ANCHORAGE:** At approximately 5:30 PM, your guide will take you to your hotel for an evening of leisure. #### **UPGRADE CHOICE FOUR: ZIPLINE CANOPY ADVENTURE**

*(Morning or Afternoon departures - \$149.00 per person upgrade – Can be combined with kayaking, I-did-a-ride or half-day fishing)*

The first zip line traverse is a short 65 feet across the fall line, running fairly close to ground level and allowing riders a chance to become comfortable with the process. Still high along the valley wall, the third zip line travels 190 feet and lands 50 feet up the trunk of a huge Sitka spruce. The fifth traverse soars above the trees 1,100 feet back across the valley wall, sails over a reflecting pond, and comes to a stop at platform 75 feet up another Sitka spruce.

From this point onward the tour path descends into the ever deeper and darker rain forest with its dense vegetation and sparkling creeks. A 600-foot zip line into an enormous mountain hemlock is followed by a shorter line at mid-level in the forest and a spot where bald eagles have often been sighted. From the landing platform each group member rappels 60 feet down to the platform entrance of an aerial walkway that begins just above the ground but ends 120 feet later at point 60 feet up another Sitka spruce.

The route now takes a 90-degree turn and crosses a long bridge to a hemlock where zip line riding resumes. A 280-foot line travels toward the valley floor, ending in a spruce close to the entry road. The final traverse then crosses over the tour parking lot and past the Welcome Center yurt to land in a group of Sitka Spruce where a 40-foot rappel brings the group back to earth at last. Harnesses and helmets are shed, and group members return to the Welcome Center to collect any belongings stowed there and to view and select photos of themselves taken during the tour.

**Restrictions:** *Must be at least 10 yrs. old. Must be at least 70 pounds and not over 270 pounds. Limited to 8 guests per departure time.*

Evening is on your own to enjoy the town. **(NO MEALS INCLUDED)** We recommend considering dinner at the Salmon Bake. The best self proclaimed “cheap beer and lousy food” in the area. Really, it’s great food and fun! Tonight, you will overnight at your Seward or Anchorage accommodations based on your excursion selections. Relax as another day dawns early.

*(Depending on your hotel choice, one breakfast may be included)*

**OPTION THREE FOR DAY TEN: Alaska Coastal Bear Viewing Tour – (In Anchorage)**  
*Upgrade \$925.00 - \$985.00 pp (Plus \$14 pp National Park fee & possible Fuel Charge)*

Our premier Ursus Bear Habitat Encounter introduces you to two styles of observing large coastal bears feeding and interacting with their young in their natural habitat. This small plane adventure affords you the experience of participating in a photo safari across Cook Inlet to Katmai or Lake Clark National Parks. Silver Creek is a more personalized premium coastal viewing encounter landing on the beach with only 4-6 participants, seeing the bears in their natural habitat and the Katmai National Park offers the views of the bears feeding in the waterfalls from platforms with hundreds of other guests. Choose from the below two options for the BEST bear viewing adventure in Alaska!

**LAKE CLARK BEAR VIEWING**

Lake Clark National Park is located on the western shores of the Cook Inlet. This ocean front setting is the ultimate bear habitat. The creek running through the middle of the prairie land is loaded with Silver Salmon, attracting a resident Brown Bear population to the area all summer long. The tall grass and Iliamna Volcano backdrop make for the best pictures.

Your Lake Clark National Park Bear Viewing Adventure Begins when you depart Anchorage on one of our aircraft and head south along the Cook Inlet. The flight in itself will be a spectacular flightseeing tour; this scenic route takes you by 3 active volcanoes, numerous salmon streams, glaciers, and other Alaskan sights. The flight down takes about 1 hour, once there the aircraft will land on the beach at low tide. Once you are on the ground, your pilot will give you a brief bear orientation

The Lake Clark Bear Viewing Begins after a brief bear orientation aimed at group safety. You will head out into this ideal bear habitat to watch these creatures interact with each other in the wild. Your pilot will take you through the park, adding to

your safety and answering any questions you may have about the bears. The area is excellent for viewing the bears because of the layout and geography; it is a long stretch of prairie grassland and beachfront. Watch as they frolic in the grass with their cubs, dig for clams, and take afternoon naps. Lake Clark National Park is beginning to be well known as the best bear viewing in Alaska, and for good reason. This area is home mostly to Brown Bears, but it is not uncommon to see a few Black Bears in the area as well.

Mobility Impaired: This tour requires a moderate amount of walking on uneven terrain (approximately 1-2 miles) If you are concerned about you or someone in your party's ability to do so, please contact our office to review the options.

The federally-protected Katmai National Park and Preserve is world famous for Alaska brown bear viewing. Accessible only by air, this is Alaska wilderness in its rawest form. Our fly-out Katmai bear viewing adventure takes you to Brooks Falls, where three bear viewing platforms connected by elevated boardwalks allow for close, unobstructed and extraordinary bear viewing in Katmai National Park. In July, lured by spawning salmon, as many as fifty bears can be seen at once along the 1.5-mile Brooks River.

Katmai bear viewing at Brooks Falls is self-guided, but Katmai National Park Rangers provide an initial briefing upon arrival and are available for questions. An on-site wait list for the Lower River bear viewing platform may be implemented when visitation reaches capacity, to ensure quality bear viewing. Departing from Lake Hood, Anchorage, you fly over Cook Inlet, the Alaska Range, remote islands, before landing on either Brooks or Naknek Lake in Katmai National Park and Preserve. Katmai is home to the world's largest population of Alaska brown bears and the famed Valley of Ten Thousand Smokes – a forty square mile, 100 to 700-foot-deep ash flow deposited by Novarupta Volcano in 1912.

### **The Katmai Bear Viewing Experience**
