**DAY 2-PALMER: 1) MUSK OX CONSERVATION CENTER** - This private non-profit organization dedicated to the development and domestication of the musk ox, *Ovibos Moschatus* for the purpose of providing additional subsistence income opportunities for Alaska's first people. The Musk Ox Project began to introduce a gentle, non-intrusive form of agriculture to the Arctic in 1954. Our musk oxen are the foundation of an Alaskan cottage industry for natives living in remote coastal villages. The soft under-wool of the musk ox, qiviut, is harvested once a year and delivered to Oomingmak, an Alaskan native knitter's co-operative. The knitters work at home in Eskimo villages throughout Alaska creating scarves, nachaqs (Eskimo smoke rings) and luxurious caps. Each village has its own signature pattern derived from traditional designs. On this adventure take an informative tour with led by a knowledgeable guide to learn about the project and take advantage of this unique opportunity to see and photograph one of the Arctic's oldest living species. See tame cows, powerful bulls, and newborn calves that will make your heart melt.

Intermittently placed picnic benches allow guests to choose their own participation level. Great photo ops from all picnic benches. (*\*HELICOPTER GLACIER LANDING UPGRADE AVAILABLE/ \$249 person\**)
